

For Microsoft Train Simulator.

By Mikael Andersson (micke@micke-andersson.se)

ATTENTION!! Mention MSTs or TrainSim in the subject if you're writing in English.

The locomotive uses chain coupling
(Or you have to change in the .eng files).

Installation:

1. Extract the zip file to a temporary folder.
2. Move the Y_ETT folder to your TRAINS\TRAINSET folder.
3. Launch the consist editor and add the locomotive where you like.

Thanks to: All my Beta Testers

Sorry if I have miss someone.

And of course all members at the Swedish forums.

References: SLM 1988 - 2006

This model is freeware, and you are allowed to repaint if I get full credit .And that you send me a link so I can download the skin myself.
